

COVID-19 Service Schedule Update - The Plant People Ltd

Due to the instructions by the GORTT, our corporate plant rental and maintenance service has been deemed a non-essential service and we will not be able to send our staff to service plants at your office premises from Tuesday 31st March 2020 until April 30th 2020.

In anticipation of this occurring and that we may have had to reduce or stop service altogether, staff members were advised to water the plants on your premises heavily and where possible, move plants away from windows or heated areas.

While this may result in the loss of a percentage of plants on your premises, we understand and support the position of the GORTT to keep us safe through this limited lockdown and prefer to safeguard your employees and ours at this time.

Invoices will be sent electronically for now and in hard copy once there has been an update on the status of lockdown.

We thank you for your understanding at this time and urge you to STAY SAFE and we look forward to resuming our service once deemed safe to do so.

Should there be any questions please feel free to contact us.

HOW CAN YOU HELP:

Where possible, if it hasn't already been done, we would greatly appreciate if you could do any of the following:

- Have a staff member put a little water in the plants once each week
- Move plants away from windows more towards the inside of the room.

•Unfortunately we cannot remove any plants or pots again during this time•

thanks
for your
support
